**Artist Talk** - Politics, Extravagant Medium: The Pop-Up Books of Shawn Sheehy  
Shawn Sheehy creates artist books and other paper engineered ephemera with an ecological bent. He dedicates his artistic practice to raising awareness of environmental issues and contemplating the cultural impacts of human/wild relationships. He uses paper-engineered structures to communicate those ideas because of their inherent potential to capture viewer attention and deliver messaging. In this presentation Sheehy will talk about his work; about balancing artist books, trade publishing, workshop instruction and directing a nonprofit; and about the alluring and enduring power of pop-up books.

***Dressing in Red:  
Madder Bookcloth for Books, Boxes & Portfolios***

**Skill Level:** All Levels Welcome

**Class Limit:** 12

**Materials Fee:** \$85

**IRIS SULLIVAN DAIRE**

Iris Sullivan Daire is an artist and naturalist dyer who uses site specific pigments and dyes to add new layers of meaning to the narrative of her work. She relishes using science, metaphor and story to bring the materials to life while teaching. Sullivan Daire lives with her family next to the Columbia River in Astoria, Oregon. She grows traditional dye plants and has been quietly mapping the hidden colors contained within the native and invasive plants of the North Oregon Coast. She holds a BFA in fiber arts from University of Oregon and has been teaching for over 20 years.

## *Dressing in Red:*

### *Madder Bookcloth for Books, Boxes & Portfolios*

Madder Root has been part of bookbinding for longer than the printing press. This ancient dye has been used for thousands of years for textiles and to create pigments used for painting and ink. In this workshop participants will learn the special requirements for dyeing with this plant, and ways to include it in their art practice.

Day One: We will dye linen and cotton/hemp cloth suitable for bookcloth. A few options for patterning the cloth using simple resist dyeing techniques will be presented for students to try.

Day Two: We will back our red cloth with paper and explore ways to make the most out of the left-over dye bath - by creating pigment and using it for enhanced botanical prints. Each student will end up with three pieces of book cloth, dyed linen thread and several botanical printed papers.

**Materials Provided by Instructor:** Clamps, cloth prepared for dyeing (linen and cotton/hemp), comprehensive packet with all instructions, dried leaves for printing, drying racks, dye pots, hot plates, ironing boards and irons, Madder root and all necessary adjuncts for dyeing, paper for backing cloth and for printing on, paste and brushes, pasting boards, rinse buckets, sewing machine (1), tongs

**Materials Provided by Student:** Apron, bone folder, gloves (surgical style), note taking supplies, rags or roll of paper towels

**Optional:** Additional papers to print (watercolor, cotton bond, etc.), galvanized steel flashing shingles (two - 8" x 12"), Nori Paste (small jar), paste brush, sewing machine (if it is easy and you live locally -no obligation to share machine with other students)

Thursday & Friday April 13 & 14 - Two-Day Workshop

## *Unfolding Gallery Book*

**Skill Level:** Intermediate/Advanced

**Class Limit:** 12

**Materials Fee:** \$30

*MARGO KLASS*

Margo Klass is a mixed media artist whose work includes construction and artist books. In both, natural and found objects are springboards for content, often narrative but always symbolic of meaning beyond what the objects suggest. Aesthetically she draws from her study of medieval art and travel in Japan. Klass has received awards from the Rasumson Foundation and Alaska State Council on the Arts. In 2015 she received the Governor's Individual Artist Award. Her work is in the Alaska State Museum, Anchorage Museum, University of Alaska Museum of the North, Pratt Museum in Homer, and other public and private collections.

## *Unfolding Gallery Book*

This 3-dimensional book structure requires the artist to imagine how the book will be experienced in the hands of its viewer – from unlatching the cover and opening the box, to unfolding the hinged panels outward in all directions, and discovering at its center the object in the recessed compartment. Each step requires the viewer's active participation. Although this structure invites the book to be purely visual, text can be added to any of its components.

In this workshop we will construct a model, as pictured. We will learn how to measure and cut all its parts, use book cloth to hinge together the four sets of triple-folded panels around the central recessed compartment, and imbed a magnetic closure in its cover. Participants will personalize their models by providing an object to be featured in the central well and papers to mount on the surrounding panels.

**Materials Provided by Instructor:** Book board (some precut), book cloth, display board, epoxy glue, Kozo papers (basic), magnetic closures, methyl cellulose

**Materials Provided by Student:** Bone folder (Teflon preferred), cutting matt (18" x 24" minimum), cutting tools and blades (Xacto plus a heavy duty knife, such as a Sheffield knife) glue brushes (round, stiff bristle such as .25" and .75" in diameter), graduated measuring edges (such as <https://volcanoarts.com/product/measuring-rules-set/>), papers – light to medium weight for mounting on top of horizontal and vertical panels (decorative, plain, text, found papers etc.) pencil and eraser, PVA glue (at least ½ cup), rulers (quilting type – several, various sizes such as 2" x 18", 3.5" x 8", 5.5" x 14"), scissors, scoring tool, small object for center of book (maximum size: 1.5"H x 1.5"W x .5"D), small right angle, tweezers, water jar, weights (brick size or smaller – small clamp would work)

**Optional:** Corner tool, personal light, sanding block

Thursday & Friday April 13 & 14 - Two-Day Workshop

**Optional:** 3" metal triangle (highly recommended), natural materials for decoration, small weights

Moe Snyder is an accomplished book, box and drawing artist with a BFA in Book Arts from Oregon Collage of Art and Craft in Portland. Her work and teaching are focused on our connections to the natural world, the joy of find craft and the richness to be found in mindfully connection the two. Snyder lives and explores from her home in Seal Rock, Oregon.

***SHAWN SHEEHY***

## *Animated Pop-Ups*

Pop-ups are dimensional and come to life when a page is turned. Moveables are flat and come to life when a tab is pulled. Both strategies alone can animate a page; combining the two can make the animation even more exciting. In this workshop you will assemble and explore a variety of applied foundational structures for paper engineering. (Applied: Use a flapping structure to pop-up a flying bird) You will bind the collected structures into a simple case. All skill levels are encouraged.

Shawn Sheehy has been teaching book arts courses and workshops since 2001. His broadsides and artist book editions have been collected by such prestigious institutions as Sandford, Carnegie Mellon, University of Chicago, Library of Congress, UCLA and Harvard. His pop-ups have been featured twice in both *Hand Papermaking* magazine and *Vintage* magazine. Sheehy's pop-up book *Welcome to the Neighborhood* was published in 2015 and his pop-up book *Beyond the Sixth Extinction* was published in October 2018: both through Candlewick, and both winning numerous awards. He holds an MFA in the Book Arts from the Columba College Chicago. Visit him at [shawnsheehy.com](http://shawnsheehy.com)

## ***Introduction to Paper Marbling***

Skill Level: All Levels Welcome

Class Limit: 12

Materials Fee: \$35

*PIETRO ACCARDI*

## *Introduction to Paper Marbling*

Introduction to the art of marbling will provide students with an understanding of the history, styles, tools and techniques of classical European Marbling. The morning discussion will cover all the foundational elements of marbling practice: acquisition and proper use of the supplies, including carrageenan, primer, paints, trays, rakes, combs, etc. During the discussion each student will also be engaged in the preparatory mixing of the water medium in their own tray. Pietro will then demonstrate to the class how marbling is executed. With helpful instruction on handling paints on the water medium, dealing with known and unknown variables; he will show how to create classical and basic marbling patterns (as well as spontaneous designs) using a diverse array of rakes and combs. Students will have ample time for their own practice and experimentation with personal guidance from Pietro. Each student will have their own tray, set of paints, rakes, combs and papers. Students usually leave with 15 sheets of their own original marbled pieces.

**Materials Provided by Instructor:** Combs, drying racks, paints, pre-primed papers, rakes, trays with carrageenan water bath

**Materials Provided by Student:** Apron, comfortable shoes, way to transport papers home

Pietro Accardi is native to the Italian city of Turin, where he established “La Legatoria del Sole”, a modern bookbindery steeped in the ancient traditions of paper marbling, restoration and bookbinding. After lengthy service to Turin’s Municipal Archives, Main Public Library and University Libraries he is now enjoying his second life as a well-loved book arts teacher at the Center of the Book in San Francisco. Efforts and synchronicity in life allowed him to rebuild the bookbindery where he teaches private classes, makes marbled paper and fabric and restores books. He is currently restoring elderly books for the University of Nevada’s Library of Special Collections. His teaching style is generous and kind with an endearing Italian accent.

Friday April 14 - One-Day Workshop

## ***Advanced and Metallic Paper Marbling***

**Skill Level:** Intermediate

**Class Limit:** 12

**Materials Fee:** \$35

***PIETRO ACCARDI***

## *Advanced and Metallic Paper Marbling*

Students will build upon their marbling skills with the introduction of new techniques like overmarbling – where one pattern is superimposed on an existing pattern. More complex patterns will also be demonstrated. With the instructor's guidance students can work on classic patterns with an eye for nuances in color harmony and pattern refinement. Introduction to the world of metallic paint will add excitement to the class. As metallics are seldom used in marbling due to their weight being a factor in floating on the water bath. Pietro will assist in troubleshooting the common mistakes made when marbling, as well as dealing with the many known and unknown variables that affect this art form.

**Materials Provided by Instructor:** Combs, drying racks, metallic and acrylic paints, previously marbled paper for use in overmarbling, primed paper and fabric, rakes, trays with carrageenan water bath

**Materials Provided by Student:** Apron, comfortable shoes, way to transport papers home

***SHAWN SHEEHY***

## *Paper Engineering for the Pop-Up Curious*

Nearly all pop-ups are built from just two simple fundamental structures: v-folds and parallel folds. Learning how and when to use those two structures – and to see the broad range of what they can do – can open the door to a lifetime of exploration. In this workshop, you will learn the fundamentals of pop-ups by building a set of models with a simple set of tools and materials. Ultimately, you will bind your folios together into a book of samples. All skill levels are encouraged.

**Materials Provided by Instructor:** Coverstock, PVA glue and cups, papers, pattern set

**Materials Provided by Student:** Bone folder, cutting mat (12" x 18"), cutting tool and blades (Xacto), pencil and eraser, ruler (12"), scissors

**Optional:** Glue brush (.25"), glue sheets, micro spatula, tweezers

Shawn Sheehy has been teaching book arts courses and workshops since 2001. His broadsides and artist book editions have been collected by such prestigious institutions as Sandford, Carnegie Mellon, University of Chicago, Library of Congress, UCLA and Harvard. His pop-ups have been featured twice in both *Hand Papermaking* magazine and *Vintage* magazine. Sheehy's pop-up book *Welcome to the Neighborhood* was published in 2015 and his pop-up book *Beyond the Sixth Extinction* was published in October 2018: both through Candlewick, and both winning numerous awards. He holds an MFA in the Book Arts from the Columba College Chicago. Visit him at [shawnsheehy.com](http://shawnsheehy.com)

Saturday April 15 - One-Day Workshop

## ***Hatch Top Box***

**Skill Level:** All Levels Welcome

**Class Limit:** 12

**Materials Fee:** \$40

***PIETRO ACCARDI***

## *Hatch Top Box*

Handmade boxes are not only lovely, they are also quite useful and can be used to store a range of objects. Using hard board or Masonite and marbled fabric, learn the basics of creating decorative boxes made with marbled bookcloth. Expanding on these primary box building skills, students will learn about more complex functions by adding a hatch-top and bottom drawer. This structure also features rounded corners giving a pleasing twist to the standard pointed corner. Everyone will create a multi-purpose box that is ready to use with its rounded corners, top compartment under the hatch lid and fabric covering.

**Materials Provided by Instructor:** Box pieces, marbled fabric, paper template, PVA glue

**Materials Provided by Student:** Cutting mat (18" x 24"), cutting tool and blades (Xacto), glue brush (2"-3"), glue sheets, ruler (metal 18" or longer)

Pietro Accardi is native to the Italian city of Turin, where he established "La Legatoria del Sole", a modern bookbindery steeped in the ancient traditions of paper marbling, restoration and bookbinding. After lengthy service to Turin's Municipal Archives, Main Public Library and University Libraries he is now enjoying his second life as a well-loved book arts teacher at the Center of the Book in San Francisco. Efforts and synchronicity in life allowed him to rebuild the bookbindery where he teaches private classes, makes marbled paper and fabric and restores books. He is currently restoring elderly books for the University of Nevada's Library of Special Collections. His teaching style is generous and kind with an endearing Italian accent.
